

2020 Hindsight

Larry and Leslie Latour

No you can't turn around
We're all gonna drown
You say we've been blindsided
Don't act so damn righteous

You were part of the fall.
We all dropped the ball
If you look at the path, yeah
Didn't answer the call

We hit a wall
Dropped the ball
Yeah hit a wall
In a Free fall

(chorus)
Hindsight
2020 hindsight
Doesn't make your mind right
You can never go back
To a crowd
To a flight
To a concert at night

To a flight in the air
No more share
Hey no fair
Unaware
Don't you dare
Go outside

Set in a time
where you won't go outside
Can't hang out with your mates
You can still hear the cries

Of the ones who were lost
Helter skeltered & then
we all keep on asking
hey what where & when

You can't be with the others
Till they get over the deluge
Nothing left but the refuge
Can't accept the way it just has to be

(chorus 2x)
