

Captain Willie

Larry Latour

Mollie says to Janie
Standing on the quay
She says I heard your Willie
Will be coming home today

He's such a fine young captain
All the envy of the bay
We're all so proud of Willie
through and through

Janie smiles at Mollie
But a tear comes to her eye
Proud of Captain Willie
But her smile is just a lie

She knew she couldn't bear it
Yet another sailless sky
She loved her dear young Willie
through and through

Willie come home my dear
Willie come home from the sea
My captain come home
And I'll love you forever
Just please come home to me

(Chorus)

**Out to sea in the cold and the lightening
Out to sea from the northern bay
Out to sea where the fisherman say
is the Grand Banks fisherman way**

**Out to sea in the cold and the lightening
Out to sea from the northern bay
Out to sea where the fisherman lay
in the Grand Banks fisherman way**

As great as the swells of the north Atlantic be
The sun and the moon and the stars forsaken me
Day after day after night after night
In the wind and the rain and the gales
of the northern sea

(Chorus) Out to sea...

Three boys of captain Willie
All fisherman they say
Helping mother Janie
Through the night and through the day
Young Angus be a captain
In his father's way
Angus loved his father
through and through

Standing on the rooftop
In the brilliance of the night
Shouting orders to the helmsman
With the north star in his sight
Bringing home his trusted schooner
just as his father might
Angus was a captain
through and through

Father come home my captain
Father come home the sea
My captain come home
And I'll love you forever
Just please come home to me

(Chorus) Out to sea...

All the fine young woman
And all the fine young men
Working hard to build a life
To let their children live again
If you ever wonder why
You'd better look at them and then
You'd know just why you love them
through and through
And every day you're lovin' them anew
