

## Love Is What We Need

*Leslie & Larry Latour*

Somewhere silent baby sleeps  
Shepherds tending flocks of  
sheep  
All is new from up above  
All they need is love

Baby grown into a man  
Tries to teach us what he can  
Lessons learned from up  
above  
All you need is love

I remember what you said  
Heal the sick and raise the  
dead  
Simply an example of  
How to live that love

(chorus)

Will we let the darkness  
reign?  
Let the message die in  
vain?  
Can we each plant just one  
seed?  
Love is what we need

Year by year we lose our hold  
On what that son of man had  
told us  
Buried deep, we lose our soul  
Love is growing cold

Down here we see scary  
things  
Violence reigns and war is  
king  
Children die, the wounded  
bleed  
Love is what we need

I remember what you said  
Heal the sick and raise the  
dead  
Simply an example of  
How to live that love  
(chorus)  
Will we let the darkness  
reign?  
Let the message die in  
vain?  
Can we each plant just one  
seed?  
Love is what we need

Time to think of silent nights  
Northern Star is burning  
bright  
Baby sent from up above  
All we need is love  
(chorus)  
Will we let the darkness  
reign?  
Let the message die in  
vain?  
Can we each plant just one  
seed?  
Love is what we need
