

Makin' Paper From The Wood ("That's Life" version)  
by Leslie Hemberger-White

I did my jobs, took home my pay  
Had no idea they would take it away  
Gets real scary when you do what you know,  
Show up for work, Boss tells you "GO"

(chorus)

But where do you go  
Town's built around the mill  
And our homes and our families  
Are settled there still...  
We all worked hard, we did what we could  
Well that's what we know: Makin' paper from the wood  
Well that's what we know: Makin' paper from the wood

Cupboard's getting' bare, don't seem fair  
All that I want is to earn my share.  
But what can I do?  
I learned what I could.  
And that's what I learned: Makin' paper from the wood

(chorus)

World's changin' fast, maybe things don't last  
Must be more to learn on this changin' path  
Sure hope it's good  
Guess we'll know when we should  
'Til know our heart's in makin paper from the wood

(chorus – 2x)
