

Stranded

Larry & Leslie Latour

Carry me across the shallows
Drift here by my side
In the depths you're right beside me
drifting with the tide

Don't know where you came from
don't know where to go
I'm letting something lead me
Melting in the flow...

You could've left me Stranded
You could've passed me by
Stranded
Just one more weary traveler
One more empty sigh

You could've looked away
And never even known
I never would've noticed all the beauty
That's been sewn
between us

Driftwood beach
sandy reach
Leave me now
and Go

I reached out & you caught me
in the twinkling of an eye
There you were
There we were
Here we are
Why not now

You could've left me Stranded
You could've passed me by
Stranded
Just one more weary traveler
One more empty sigh

Driftwood beach
sandy reach
Leave me now
and Go

I reached out & you caught me
in the twinkling of an eye
There you were
There we were
Here we are
Why not now

You could've left me Stranded
You could've passed me by
Stranded
Just one more weary traveler
One more empty sigh

One more empty sigh (3x)
