

Sunrise Moon

Larry & Leslie Latour

Sunrise moon
Arizona sky
Mesquite wind
Desert lullaby
Highways disappearing like an arrow into the the pastel hills
Green grass has no place in this world

The key to my life
In this little desert town
Saved a life to get here
Now she's takin' me down
For pizza and burritos
And rock 'n roll dreams
All that it is isn't all that it seems

(chorus)
Trailer park ladies
Circle K lies
Washed out lovers and
Burned out sighs

Crumblin' adobe
Transparent souls
Hard luck livin'
And prairie dog holes

Place like any other place
Dreams they stay the same
People drive the same ol' cars
And have the same ol' names

The Old Town Cantina
And the Oak Room bar
Cocktails and Jewelry
Black top and tar

(chorus)
Trailer park ladies
Circle K lies
Washed out lovers and
Burned out sighs

Crumblin' adobe
Transparent souls
Hard luck livin'
And prairie dog holes

Sunrise moon
Arizona sky
