

**The First Snow Of October** – Larry & Leslie Latour, (Capo4-G)

    C        D  
Early this morning  
                G G/F# Em  
Front was passing through  
                C  
The sound of rain and thunder  
                D  
Pressed me close to you  
                C  
Outside on the front porch  
                Em  
Snow hiding in the shadows  
                C                D  
We curled up in the blankets  
                G  
In the first snow of October

                C  
I've lived a long long time  
                Em  
But I still got a long time left to go  
                C    D  
Spring and summer passed me by  
                G  
But just a hint of snow  
                C  
As long as I'm with you  
                Em  
I think I'll live forever  
                C                        D  
But even if I don't... You're still right here with me  
                G  
In the first snow of October

(chorus)

                  C    D  
The first snow of October  
                  G G/F# Em  
Mountains sprinkled white  
                  C  
We're all wearin' winter  
                  D  
Bundled up so tight  
                  C  
Snow is melting quickly  
                  Em  
But it'll come again real soon  
                  C  
I'm just glad you're here with me  
                  G  
In the first snow of October

In the cool of the afternoon  
Clouds billow white and gray  
People smilin' hand in hand  
Breathing in the day

A look into your eyes  
It's cold out here they say  
Everything's more beautiful  
After the first snow of October

(chorus)

The first snow of October...
