

The Middle Of Nowhere

Larry and Leslie Latour

Everywhere I look
I can see for miles and miles and miles
Creepy crawly creatures here like little crocodiles
But every now and then a little desert flower smiles
In the middle of nowhere
I'm everywhere with you

Whispers in the wind
and the clouds are playing hide and seek with the rising moon
A lone coyote sings as my wind chimes play a lonesome little tune
The shadows of those hills
They can just make a lover swoon
In the middle of nowhere
I'm everywhere with you

Everywhere I go
You're with me
How I love you so

How we got to this 'ol place
Don't ask me I don't know
It's the middle of nowhere
and I'm everywhere with you

No one else could ever really know
Why I wanted to go
To the middle of nowhere
Because it's everywhere
Everywhere but nowhere
In the middle of nowhere
You're right here with me too
In the middle of nowhere
I'm everywhere with you
