

There'll Always Be Me

By Leslie Hemberger-White (now Leslie Hemberger Latour)

When I was a child
I lived in the times
Where the Unicorns wandered
And the fairy rings glowed
The world wasn't scary
The games were all fun
And it wasn't till later
I learned how to run

(Chorus)

Well I've lived in the city
I've lived in the country
I've lived in the woods
And I've lived on the sea
But there's somethin' I've found
All my years movin' round
Wherever I'm livin there'll always be me

When I got a bit older
The world got much colder
I started to think that to move on was good.
I ran & I flew & I tripped & I slid...
And I found that to move
Was just somethin' I did.

(Chorus)

Now that I'm older,
I sit on the porch
In my rocker
Right down in the woods by the sea
Well it's right in the country,
not far from the city
But it's home
And I'm here
And it's just right for me.

(Chorus) (2x)
