(intro)

G G/B G/C G/D G/E G/B G/C D

(verse)

G G/B  
She woke up this morning  
G/C G/D  
On the wrong side of the bed  
G/E G/B  
I don't know how she got that way  
G/C D

I don't know what I said

G G/B

The phone rang

Her eyes they said

G/C G/D

she didn't want to pick it up

G/E G/B

I said "Hey, It might be for me!"

G/C D

She went outside for a cigarette

G G/B

That's life

G/C G/D

It's those little things'll get ya

G/E G/B

That's life

G/C D

Those little things

(verse)

I stagger in the doorway  
On the wrong side of my day  
I don't know how I got there  
Nothing she could say  
Would make it any better  
But she loved me anyway  
And she always would

That's life

It's those little things

(chorus)

G G/B  
It's those little things that get ya  
G/C G/D  
It's those little things that bend ya  
G/E G/B  
It's those little things that twist  
you round  
G/C D  
Those little things that hurt

G G/B  
It's those little things that grab you

G/C G/D  
And those little things that shake

ya  
C/D D/B D/C D

If it weren't for love

(back to intro)  
Those little things would break ya

That's life... It's those little things

(verse)

So if one day you find yourself  
On the wrong side of your life  
And you don't know how you got  
there  
Just ask your husband or your wife  
To love you  
They'll do the best that they can do  
To forgive the little things  
Just like you would do  
'cause...

(chorus)

That's life  
It's those little things  
That's life  
Those little things  
That's life
